Subject: A reply from me, Chris

Hi Alex,

Great to hear from you! It has been some time since we last emailed each other.

It was a pleasure to hear that you are coming back to visit us in October. Also, thanks a million for your invitation about getting together for dinner with aunt and uncle. How kind of you! Three places please!

As a return, I will pay you back with some of the best places I have been to for entertainment, shopping and souvenirs. Causeway Bay is a place you can't miss. It is the most popular area for teenagers who love shopping since it offers many kinds of clothing, fancy shoes and sports

equipment for outdoor and indoor activities at a reasonable price. The second on the list is Stanley. This place is also one of the most popular shopping areas, not by its modern shopping type but precious and colourful souvenirs from countries all over the world. On the other hand, Stanley provides wonderful beaches and sea views. Mongkok is a lively and busy district with lots of shopping malls and traditional souvenirs shops. Don't miss "Gold Fish Street" in Mongkok. You will find all sorts of exotic fish and amazing reptiles once you get there! By the way, I have never heard about the Symphony of Lights in Tsim Sha Tsui before, but the lasers sound fun so I will find out more and write another email later to let you know its schedule.

Did you mention Ocean Park? Well, you have made a great choice! Ocean Park is the most famous place for young people like us to be entertained and have fun. It provides wonderful sea views, an absolute green environment and exotic animals. You can see different kinds of land and sea animals in different setups of enclosures, which make everything realistic and close to nature. Ocean Park is a theme park with lots of different games for visitors of all ages like roller coasters and other mechanical rides. I don't like roller coaster, though! By the way you can

also shop for some realistic nature-looking souvenirs while enjoying yourself. Also, make sure to check the animal show schedule. The shows will blow you away!

Look forward to your reply.

Bye for now,

Love Chris

PS: Make sure to bring us some chocolates please. I would love to taste Canadian chocolates.
