

Japasa 1C

My school is Sir Ellis Kadoorie secondary school (West Kowloon). My school has a canteen. We have our lunch out there every afternoon. I like the library at our school because it has a lot of books.

I have a new friend at school called Jenisa. She likes playing volleyball and she is very outgoing and she can be befriended very easily. She is kind and helpful. She also has a positive attitude towards learning. She likes PE and VA. She is more of an arts person and definitely has a creative mind.

We usually sit together during lessons unless the teacher separates us for talking too much. Are you playing volleyball together during recess or enjoying snacks together? We usually don't see each other much after school.

I feel happy to come back to school every morning and make new friends every day. It helps me have a positive attitude towards myself and start my day on a happy note.
