Dear, Miss Chan,

How are you? I came to know that you are planning to spend two weeks of your summer holiday in a South Asian country. I suggest you going to India since it's my country.

India is a very beautiful place and it is full of traditions. India is a very nice place to visit because people in India are really friendly. They will treat you very nicely. If you need any help, they will always be there for you and you can also learn about our amazing country and traditions.

If you visit India, I suggest you going to the Taj Mahal. It is a very famous attraction. People from all around the world go to India especially to visit the Taj Mahal. It's really beautiful there, specially for taking photos. Taj Mahal is one of the biggest attractions in India. It was built by a Muslim man but his hands were later chopped off so that he wouldn't build such a beautiful building somewhere else. It is a very big museum and is full of historic displays from around India.

The second place I suggest you to go to the Golden Temple located Amristar, Punjab. Golden Temple is also one of the biggest attractions in India. When I go to India, Golden Temple is my must go place. People go there to pray and you may also take beautiful photos. If you are wondering why it is called the Golden Temple, let me tell you it is because it is a temple made of pure gold.

When you go to India, I suggest booking a hotel there. Their service is quite good and you will be feel very comfortable there. If you have free time, you should go to the street stalls in India to try our traditional and delicious street food. I'm sure you will love it. I hope you will visit India and have a great time there. Remember to take photos!
