

Cyber City Adventure

Watson Timothy John

1D (22)

I bought a space shuttle ticket for Cyber City two weeks ago and it was a once-in-a-life-time adventure.

We arrived at Cyber City Space Port and took a flying taxi towards downtown. We couldn't believe what we were viewing. Spaceships replaced cars. There were space trains. Many robots, aliens and tourists all lived together. It was a marvel to behold.

I rented a flying bicycle and rode to the tallest tower in Cyber City, the Outlook Tower. Along the way, we saw a robot lying on the floor. It asked me for help and asked me to go to a near by Robotic Repair Center to do a checkup. The robot had to rest in the repair center.

I heard my mum's voice calling me to do homework. I took off my VR headset and started doing my homework.
